ARP1 AK47/74 ALUMINUM RAIL PLATFORM

IMI-ZRP01

PRODUCT OVERVIEW

The IMI Defense™ ARP1 AK47/74 is a high-end battle-ready aluminum alloy rail system for the legendary AK47. The system incorporates all necessary features to step the AK47/74 platform up to the 21st century in a lightweight yet very slim design with a perfect fit. The system is designed to properly enable the mounting of modern accessories such as lights, lasers, optics, foregrip and QD sling mounts in the right places while keeping superior ergonomics and comfort of use.

KEY FEATURES

- Mil-Std hard anodize aircraft grade. Machined from 6061 T6 billet aluminum for maximum strength.
- Easy installation - Drops on common AK47's, AK74's and Saiga rifle instead of wooden/plastic handguards
- Precision optic ready top rail for scopes, night vision and reflex sights.
- Dual sided QD sling mounts
- Multiple configurations - add/remove front and back top rail modules
- Laser engraved T marked rails
- Highly ergonomic
