OPERATOR - ENHANCED TACTICAL M16/AR15/M4 STOCK

IMI-Z5105

PRODUCT OVERVIEW

The IMI Defense™ M4 Operator Tactical Stock features superior cheek weld Sopmod design, rigid and robust design, rubberized and adjustable butt pad and watertight O-ring sealed battery compartment. The butt pad slides down in multiple positions allows the user to raise the cheek rest to a desirable position without reducing the rigid design. Available for Mil-Spec and Commercial buffer tubes. With two QD mounts for extra support, available for left and right shooters.

KEY FEATURES

- Made of a high-quality fiber-reinforced polymer compound.
- Available for both mil-spec and commercial buffer tube
- Slim and low profile over-molded butt plate design
- Shielded slide-release latch
- Sopmod tactical design
- Right and left QD tactical sling adapter ports(two from each side)
- Sealed storage compartment for CR123 or AA batteries
